

# *Building on Excellence*

THE CAMPAIGN FOR BRATTLEBORO MEMORIAL HOSPITAL

## Employees Are Generous Donors to Capital Campaign for BMH

Brattleboro Memorial Hospital employees realize firsthand the importance of having a new Outpatient Building to better serve our community. Their financial support and participation in the capital campaign is a great illustration of their commitment. They have already topped \$145,000, and they've only just begun. Hospital employees have been very generous in their contributions...buying inscribed bricks in honor or memory of a loved one, and supporting the effort in a number of other ways. More than 20 employees are part of the internal Employee Campaign Committee. Here's what a couple of them say about the importance of this BMH Outpatient Building Project:

*"Being on the Employee Campaign Committee has made me realize just how much the new renovation and building project is needed. The patients I work with have praised the care they receive from the hospital, but have concerns about the hurdles in getting to some outpatient services and the space constraints in some areas. Having visited other areas of the hospital, I now realize this is a concern with other departments and not just Cardiac Rehab."*

—Karen Speranza, Cardiac Rehab

*"I have been in the BMH "family" for about 15 years and for the first time felt very strongly about giving to make our new addition a reality. As an office nurse, I see the struggle that many of our patients go through with our present building. I want to help make a difference. My father "Bud" is a proud volunteer at BMH and it is a chance for me to honor him by placing a brick in his name."*

—Mark Herman-May, Orthopedics

## Construction Progress

Site work on the BMH Outpatient Building is underway and on schedule. We're reporting this to you because the work is not directly visible from the front of the hospital. The foundation work will begin this month. We appreciate your patience with any inconvenience such as parking. We have established an offsite parking area for employees to help relieve that problem. Watch here for further construction updates, or you can check updates on our website: [www.bmhvt.org](http://www.bmhvt.org).

***If you have questions about the information above,  
please call Barry Beeman, President, at 802-257-8245.  
We will provide monthly updates on the second Saturday of each month.***
