

# Building on Excellence

## THE CAMPAIGN FOR BRATTLEBORO MEMORIAL HOSPITAL

**Brattleboro Memorial Hospital** has a great staff, excellent care, and up-to-date technology appropriate for a community hospital.

So what is the primary focus for BMH in its second century of service to the community? How do we plan to build on this "excellence"?

Brattleboro Memorial Hospital has a number of space challenges. This month, we'll focus on our **orthopedic services**. Read what people say about orthopedics and physical therapy services at BMH...

*"The three-hour trip I drove to have Dr. Vranos perform surgery on my knee was well worth it because he and his staff were super, super great...my knee is doing really well. I have recommended Dr. Vranos and BMH to many people. He really cares about his patients."*

—Dennis Roberts

*"I was a pretty active guy, coaching baseball, playing softball, snowshoeing, traveling. A kidney disease caused me to lose my leg. The BMH Physical Therapy department did wonderful things for me. I'm able to walk unaided...the care here is great. If I had to say anything negative about this hospital, it would be the access... the new facility is a necessity, not merely a convenience. They really need it!"*

—Jim Waters

We need to bring our facility up to the same level as our care, technology and staff. We are planning a new Outpatient Building, and our "**Building on Excellence**" capital campaign to fund this is underway. Here's what one of our orthopedic surgeons says about our plans:

*"This building is really important to the growth of the hospital and to continue good patient care. People have choices where to go for their care, and we want people to come here to an up-to-date modern, convenient space."*

—William Vranos, MD

**We need your help to raise a minimum of \$2.5 million to help us build!** If you are interested in learning more about the "**Building on Excellence**" Campaign for Brattleboro Memorial Hospital, or wish to take a tour of the facility to help understand our needs, please call Ellen Smith, Director of Development at (802) 257-8314.
