

Building on Excellence

THE CAMPAIGN FOR BRATTLEBORO MEMORIAL HOSPITAL

Brattleboro Memorial Hospital has a great staff, excellent care, and up-to-date technology appropriate for a community hospital.

So what is the primary focus for BMH in its second century of service to the community? How do we plan to build on this “excellence”?

Brattleboro Memorial Hospital has a number of space challenges. In previous updates, we have focused on our need for new space to accommodate oncology and orthopedics. This month, we'll focus on our **radiology services**. Read what people say about the X-ray and other imaging services at BMH...

“We are very excited about being able to offer our patients the convenience of having X-ray equipment available very near our orthopedic physicians’ offices in the new BMH Outpatient Building. Having this along with a new, more spacious nuclear medicine department and the added space for our Women’s Imaging Center is moving in a great direction for our community. The new space will help make “standing room only” a distant memory for our patients.”

—Lynne Cordery, Director

We need to bring our facility up to the same level as our care, technology and staff. We are planning a new Outpatient Building, and our **“Building on Excellence”** capital campaign to fund this is underway. Here's what one of the BMH radiologists says about our plans:

“The new Outpatient Building will address the issues of urgently needed space and facilities to better serve our patients, keeping pace with the growing demand for radiology services. In addition to providing convenient imaging for the busy orthopedic and oncology services, we are especially excited about the new Women’s Imaging Center and enhanced outpatient Cardiac Imaging services in conjunction with our cardiologists. The newest technologies will help us provide state-of-the-art care!”

—Radiologist Ed Elliott, MD

We need your help to raise a minimum of \$2.5 million to help us build! If you are interested in learning more about the **“Building on Excellence” Campaign for Brattleboro Memorial Hospital**, we have a free short DVD showing the need for our building, and also offer a tour of the facility to help understand our needs. If interested in either of these, please call Ellen Smith, Director of Development at (802) 257-8314.
