

Building on Excellence

THE CAMPAIGN FOR BRATTLEBORO MEMORIAL HOSPITAL

Brattleboro Memorial Hospital has a great staff, excellent care, and up-to-date technology appropriate for a community hospital. BMH was one of only twenty small hospitals in the country named to the list of Solucient® Top 100 Hospitals this year for our improvements in clinical outcomes, financial strength and community service.

So what is the primary focus for BMH in its second century of service to the community? How do we plan to build on this “excellence”?

Brattleboro Memorial Hospital has a number of space challenges. This month we'll focus on our **oncology services**. Read what patients experiencing cancer say about BMH...

“We need more space...we really need more space...people don't know how many people out there have cancer, They don't know how many people have to have chemo.”

—Bernadette Haskins

“The oncology unit where I received chemotherapy is bursting at the seams, so while I sing the praises of the staff and care at BMH, they need more comfortable space.”

—Jane Rosser

We need to bring our facility up to the same level as our care, technology and staff. We are planning a new Outpatient Building, and our **“Building on Excellence”** capital campaign to fund this is underway.

Read what Sally Fegley of Tom and Sally's Chocolates says about our hospital:

“I can't say enough about the staff, the nurses, the doctors...the volunteers. Every person I've encountered at this hospital has been so loving, gracious, friendly and caring. But they need our help for a change, and I think this is one of those times – since they're always here for us...it's time for us to be here for them.”

We need your help to raise a minimum of \$2.5 million to help us build! If you are interested in learning more about the **“Building on Excellence” Campaign for Brattleboro Memorial Hospital**, or wish to take a tour of the facility to help understand our needs, please call Ellen Smith, Director of Development at (802) 257-8314.
